

PLATE PROCESSOR

Technical specification

Model

SL-90P
SL-105P
SL-120P

Material

positive and negative PS plate

Capability

400-1400mm/min

Width of Plate

900mm
1050mm
1200mm

Depth of Plate

0.15-0.4mm

Tank Content, dev

24L
32L
40L

Tank Content, wash

11L
15L
18L

Developing Temperature

18-40 degree C (cooling system is optional)

Drying Temperature

35-55 degree C

Developing Time

15-40sec (from the inlet of plate to the outlet of plate)

Water Source

tap water, Min. water pressure 1bar/15psi

Water Consumption

tap water 7L/min

Circulating water

200ml per square meter

Diameter of Gumming Roller

40mm

Developing Replenishment

0-250ml per square meter

Developing Warm-up Time

from 18 to 40 degree C within 30min

Level Adjustment

adjustable

Power Supply

50-60Hz 220V single phase

Power

3KW

Voltage Fluctuating Range

within 10%

Gross Weight

300kg

400kg

500kg

Net Weight

235kg

350kg

420kg

Packing Size(mm)

1600×1500×550

1800×1700×750

2000×1950×950
